**MEMORANDUM TO:**

<Insert Directors of Education name>  
<Insert board name>

**FROM:**

Eric Ward  
Director  
Education Statistics and Analysis Branch

**DATE:**

October 3, 2016

**SUBJECT:**

Board Interface Tools

---

The purpose of this memo is to provide you with information about the Board Interface Tools. The Board Interface Tools have been developed by the Ministry of Education to complement existing processes and resources for evidence-informed decision making within your board.

The following six Board Interface Tools are now available to school boards to support evidence-based decision making:

- The **Postsecondary Education Tool (PSE)** provides data on students who registered directly in an Ontario college or university.
- The **Suspension and Expulsion Tool (SUS/EX)** provides data on suspensions and expulsions.
- The **Student Enrolment Analyser (SEA)** provides a variety of enrolment data, with specific focus on special education programs/services enrolment and second language program enrolment.
- The **Similar Schools Analyser (SSA)** provides school-level characteristics and student outcome data.
- The **French as a Second Language Tool (FSL)** provides FSL program data.
- The **Secondary Longitudinal Interactive Course Explorer (SLICE)** provides data on the relationship between grade 9 courses and graduation outcomes.

The Board Interface Tools can be accessed using the following link, login ID and password for your board:

<https://www.esabeic.edu.gov.on.ca/sites/ESABEIC/Pages/Welcome.aspx>

**Username:**

**Password:**

ABC

12345

Your Managing Information for Student Achievement (MISA) Leader has been provided with the above login information, which ensures that each board can access only its own board data, along with regional and provincial averages. Your board may choose to distribute the login information and password for these tools based on the needs of your board.

For more information about these tools, you may wish to contact your board's MISA Leader, <Insert MISA Leader Name>. I would also be pleased to provide more information and assist in building capacity within your board to use the tools for analysis and planning.

Sincerely,

Eric Ward  
Director  
Education Statistics and Analysis Branch
