DATE: September 18, 2017

SUBJECT: Experiential Learning for Adults: Call for Proposals for 2017-2018 Projects

To support the ministry's continued work related to expanding community-connected experiential learning, the ministry has allocated funding to support projects focused on providing experiential learning opportunities that will meet the specific needs and goals of adult learners. We are inviting boards to submit proposals for projects to be implemented during the 2017-18 school year.

Opportunity

The attached Call for Proposals (CFP) provides an overview of the project criteria and deliverables associated with the funding (See Appendix 1). The project application form is available for reference only as an attachment in pdf form, but it should be completed and submitted through the online form: [<https://goo.gl/forms/p0ouxiH5VBnn9w003>].

Deadlines

Proposals will be collected in two phases to provide schools and boards with planning flexibility based on local needs and existing capacity.

1. For **Phase 1**, proposals must be submitted by **October 11, 2017**. Communication to boards with successful projects will take place during the week of **October 23, 2017**, followed by transfer payment agreements and transfer payments.
2. For **Phase 2**, proposals must be submitted by **November 30, 2017**. Communication to boards with successful projects will take place during the week of **December 11, 2017**, followed by transfer payment agreements and transfer payments.

Funding will be allocated based on a review of all applications against the criteria outlined in the Call for Proposals (CFP); it may not be possible to fund all eligible proposals received.
